

# Wedding Album Upgrades

As a company Daniel Slade Photographic has always strived to bring high quality products to our customers at sensible prices, and we have done it again! Our new albums are simply stunning! we have selected high quality materials and brought them together to make a wedding album that looks superb and will stand the test of time.

These albums are hardback with a printed protective sleeve with images on the front and back, inside you will find exceptional quality images printed onto a professional grade lustre paper. We personally recommend black pages which really make your images stand out and shine. Text can be added to any page meaning wedding vows, readings, poems or anything else can be printed for future enjoyment.

Better still, these albums are available in 5 sizes and can hold a massive 400 pages! Prices are shown below up to 160 pages, if more pages are required we will be happy to work out a personal quotation for you.
